

Brain Corp Creates New BrainOS To Scale Robotics Across

Industries

May 17, 2019

Brain Corp

This case study was written by Brain Corp in collaboration with NVIDIA for their product showcase. Published on May 17, 2019.

Being a leader in software means working with the industry's best-in-class hardware providers. Brain Corp collaborated closely with the NVIDIA Jetson team during development of Whiz, a commercial autonomous vacuum from SoftBank Robotics (SBR). NVIDIA's Jetson TX2 module outfitted Whiz with advanced perception capabilities, supported by the real-time processing of LIDAR, odometry, 3D, and RGB camera data at the edge.

Learn more about how Brain Corp worked with NVIDIA to provide SBR with a high-performance and cost effective robotics solution.
