Dinsmore & Shohl LLP Moves to EOS International to help Simplify Library Operations and Increase Efficiencies

Demanding the best in multi-site legal library automation, Dinsmore & Shohl LLP selects EOS.Web® solution

(Carlsbad, CA – November 10, 2003) Market leader EOS International announces that the law firm of Dinsmore & Shohl LLP has selected EOS.Web for their library automation and knowledge management solution, replacing a SQL system from SydneyPLUS.

Dinsmore & Shohl is a full-service law firm with more than 260 attorneys and eight offices in five states throughout the nation. For the past 95 years, Dinsmore has provided quality legal counsel to their clients, and depends upon the technology their legal library uses to keep important, up-to-date information close at hand.

The Dinsmore & Shohl library team and MIS staff are extremely enthusiastic about installing EOS.Web on their local system.

"We selected EOS.Web because of its outstanding full documentation and intuitive interfaces," states Cynthia Whitt-Covalcine, Dinsmore & Shohl Library Director. "The Acquisitions, Serials, and Web OPAC functions will help us manage our resources in a way which will better serve our firm's attorneys and clients."

Dinsmore & Shohl prides themselves on assessing and upgrading the technology they depend upon. Dinsmore & Shohl joins an impressive list of legal firms utilizing EOS library and knowledge management solutions, including: Paul, Hastings, Janofsky & Walker LLP; Milbank, Tweed, Hadley & McCloy; Katten Muchin Zavis Rosenman (KMZR); Arnold & Porter; Luce, Forward, Hamilton, & Scripps LLP; Greene, Radovsky, Maloney & Share; Gardere Wynne Sewell LLP; Steptoe & Johnson LLP, and many more.

EOS International is a leading global library information management software and service provider with a client base of over 5,000 special libraries. A client-driven company nominated for a Computerworld Smithsonian award, EOS library automation software products (EOS.Web®, EOS Q-Series®, EOS GLAS®, and hosted, EOS e-Library Service®) serve the stringent knowledge management needs of corporate, legal, medical, government and special libraries of all sizes.
