## **World's Largest Circulating Numismatic Library Selects EOS.Web® Express**

### **Unique monetary collection to become open to the general public via global EOS e-Library Service®**

(Carlsbad, CA – May 12, 2005) Market leader EOS International announces that the American Numismatic Association (ANA) located in Colorado Springs, CO, has selected EOS.Web Express to help improve access to their unique collection. ANA collection data will be hosted at the EOS Global Data Center and made available to the public via EOS e-Library Service and EOS.Web OPAC.

“Once available, the 33,000 members of ANA and the general public will be able to access and search one of the most complete numismatic libraries in the world,” states EOS CEO Tony Saadat. “Improving access to information and demonstrating value to libraries is our core mission.”

The ANA library collection offers more than 40,000 volumes covering such topics as coins, paper money, tokens, medals, economics, stocks and bonds, in addition to banks and banking. The library also maintains one of the world's finest collections of numismatic periodicals and auction catalogs as well as a large collection of slide and video programs. Library staff members also provide expert research and education regarding the study and collection of money and related monetary items. The American Numismatic Association can be found online at: <http://www.money.org>.

### **About EOS International**

EOS International is a leading global library information management software and services provider with a client base of over 3,000 special libraries. A client-driven company that has earned the top customer satisfaction award for the past two years and earned a nomination for the Computerworld Smithsonian award, EOS library automation software products (EOS.Web® Express, EOS.Web® Enterprise, and hosted, EOS e-Library Service®) serve the stringent knowledge and content management needs of corporate, legal, medical, government and special libraries of all sizes.
